EDMONTON, ALBERTA FRIDAY, AUGUST 29, 1902

SEMI-WEEKLY 8 PAGES

TELEGRAPHIC.

DROWNING AT PRINCE ALBERT.
Winnipeg, Aug. 29.
Alex. MacDonald, principal of the East Prince Albert school, was drowned.

BUSINESS FUTURE OF THE YUKON.
Dr. Morley Wyke, the manufacturer's special commissioner, has made a favorable report on the business future of the Yukon.

COSTLY WINNIPEG WATERWORKS.
The Winnipeg waterworks reservoir will cost at least \$110,000, judging by tenders.

LIPTON THINKS ITS A TEA CUP.
Sir Thea. Lipton is preparing for next year's American cup race.

RICHARDSON'S TURN NOW.
The Leger election trial has been fixed for Sept. 23rd.

WHEAT IS WEAK.
The Chicago grain market continues to be weak.

A NEW GAS FIELD IN ONTARIO.
A huge gas well has been struck at Eggleston, Ont.

EASTERN M. P.'S VISIT WINNIPEG.
A number of eastern M. P.s. are on a visit to Winnipeg.

SUGAR REFINERIES FOR CANADA.
Chas. Spreckels will build two big sugar refineries in Canada.

MORE SOUTH AFRICAN MEDALS.
Lord Kitchener's request that another South African decoration for his forces be struck, has been granted.

AN M. L. A. LAMED.
Battleford, Aug. 29.
Mr. Ben. Prince, M. L. A., while cutting yesterday had his leg broken between the knee and ankle by the horse falling on him.

GENERAL.
Strikers fired on miners and tipped at Crane Creek operations. Battleford, Virginia. Two guards and two strikers were killed and several injured.

This season 900 elevators and warehouses licenses in the west have been issued by Mr. C. C. Castle.

No boys will in future be employed by the Western Union as messengers in Chicago.

Italy is negotiating with France, and Russia has impaired her power in Europe.

Jerome County, Arizona, was almost submerged by northern torrents.

Two C. N. R. engines were badly wrecked at West Port William.

An Italian was severely injured on a C. N. R. train near Carman.

Holstein did not succeed in swimming the English channel by a mile.

Rev. Morgan Wood, at Cleveland, has decided not to enter politics.

Bishop Newham, of Moosemin, was injured at Chaguan, Ont.

The C. N. R. line is within 18 miles of Neepawa.

There will be no contest over the Fair millions.

The Winnipeg horticultural show has opened.

The King of Italy entered Berlin in state.

T. Rooney, a farmer living about three miles west of Strathcona, was overcome by gas in his well on Tuesday.

He went down to make some repairs and soon fell helpless against the whirling. Efforts were at once made to rescue him but the gas was so powerful that no one could withstand it. He was taken out in an hour, but all efforts to revive him were fruitless. Mr. Rooney had lived for ten years in the district and was highly respected. He was unmarried, his two sisters keeping house for him. The news of his untimely end will be heard with sincere regret by his many friends and acquaintances.

—C. O. Swanson, Swedish immigration agent, came up from Wetaskiwin on Wednesday and returned on Thursday. Mr. Swanson confirms the reports of great damage by the hail storm of Saturday, the 23rd. His own farm was in the path of the storm, so that he speaks from personal knowledge. The tract of country affected had never been touched by hail before.

—Fritz Frederick, a settler recently arrived from Wisconsin, has laid out a town site on the north bank of the Saskatchewan in township 51, range 2, west of the 4th meridian. He has named the proposed town Lindenau. Nineteen families are now on their way from Wisconsin to settle in the vicinity. There are about 40 families now settled in the neighboring district.

—Calgary Herald: A large number of writs, varying in amount from \$5,000 to \$25,000, have been issued against the Crow's Nest Coal Company by the families of the men killed in the big explosion last spring.

LOCAL

—Ed. trader on the Liard river, landed on Tuesday.

—Albion Lamoureux, of Lomoureux settlement, cut wheat and barley last week.

—R. Hare, of Josephburg, has 75 acres of oats and barley which will be cut this week.

—Mrs. A. Bruce Powley and child and her sister, Miss Cameron, arrived from Brandon Monday evening.

—C. W. Strathy, of the Canadian Permanent, went to Calgary on Tuesday to meet Mr. Fisher, of that company.

—W. R. MacInnes, of Winnipeg, assistant freight manager of the C. P. R., was in town on Tuesday.

—Miss Dot Polly, who has been the guest of her aunt, Mrs. Dunlop, for the last six months, left for her home in Sarnia on Tuesday morning.

—Count Von Hammerstein and Otto Brant were passengers on Tuesday's Athabasca stage. Mr. Brant intends to remain in the north for the winter.

—K. A. McLeod, commenced wheat cutting on his Belmont farm early in the week. On Tuesday he left a fine sample of club wheat in the Bulletin office.

—A pretty view of Coney Island, on Cooking lake, appears in the last issue of the North-West Farmer. Timely articles on grain stacking are also given.

—S. A. Kirkwood, of Belmont, settlement, brought to town a load of beauty of hebron potatoes on Tuesday. Several weighed over a pound, and were smoothly formed.

—N. Logan, of Egg lake north of Morinville, was in town on Tuesday. He intended cutting barley as soon as he returned home. His wheat and oats will be ready next week.

—C. P. Constantine, son of Major Constantine, in command of the N. W. M. Police, Fort Saskatchewan, left on Tuesday for Kingston to attend the military college there.

—Miss Collins, of Resco, Ont., was a passenger on Tuesday's Athabasca stage. She goes to Lesser Slave lake to take a position in the Church of England mission there.

—Col. Hughes returned on Wednesday from an exploratory trip north of the Saskatchewan, and towards the Beaver river. He was accompanied by Messrs. McArthur and Mackenzie.

—The Calgary Herald says: It is reported that there is a danger of another strike in the Fernie coal mines, the men claiming that the management have broken faith with them.

—Calgary Herald: Men commenced work yesterday morning on the new, two-story business block, to be erected by Senator Loughheed, on Stephen avenue, adjoining the Norman block.

—Chas. Robarge, came in from Beaver lake on Monday by way of the base line. He left the lake at 8:30 and reached Edmonton at 6 o'clock. The road is now fairly good for loads. Three sloughs need corduroys, otherwise the road is quite passable.

A Montreal despatch of Aug. 28, gives an account of an interview with a C. P. R. official. He says, "not being awarded the contract its natural expansion of passenger and freight traffic will compel it to establish an Atlantic service of its own."

—The Edmonton Stock Works under the management of Tove Bros., turned out their first batch of soap on Tuesday last. The intention is to manufacture bluing and washing compounds and axle grease. At present the works are over Loo's harness shop, but a separate building will be erected next month.

—Mr. and Mrs. H. W. Sussex, of Longwood, Ont., left for home on Tuesday's train after a three weeks' visit to the Edmonton district. They are delighted with the Edmonton district and while here Mr. Sussex purchased C. P. R. land at Creekside. While here they were guests of Mr. and Mrs. R. Hare, of Josephburg.

—On Monday, Labor day, the Edmonton Rifle Association will shoot at the range according to the required government class firing. For each man shooting a target of \$1 is obtained, so that a large turn out of members on Monday. Ammunition is supplied free for this firing.

—Peter Gunn, of the H. B. Co., Lake St. Ann, was in town on Tuesday. Mr. Gunn says that during this summer there has been a large increase of settlement on the Lake St. Ann trail, especially at the last crossing of the Sturgeon. The people there are petitioning for a post office. Villeneuve, a few miles west of St. Albert, is now the nearest office and is 35 miles from Lake St. Ann.

—C. W. Satter, immigration agent, returned on Monday from a trip through the Riviere Qui Parle, Glenarry and St. Albert settlements. Many fields of oats were ready for cutting on Monday. H. W. McKenney, of St. Albert, cut a 50 acre field of wheat last week. Boushman, a St. Albert settler, had 100 acres of oats ripe.

—Mrs. H. Wilson, of Fort Saskatchewan, left on Tuesday's train on a visit east.

—Calgary Herald, Aug. 21.—Mrs. T. N. Christie is visiting in Edmonton for a month.

—"An Agitated Gowler" will be the subject of Pastor McDonald's address, on Sunday evening, at the Baptist church.

—Chas. Benjamin, manager of the Edmonton Clothing Co., leaves to-morrow morning for Banff and will take in the Calgary fair before returning.

NOTICE TO CREDITORS.
Of Frederick M. Shonites, of the Town of Edmonton in the Northwest Territories, Merchant Tailor.

In the Supreme Court of the Northwest Territories Judicial District of Northern Alberta.

In the matter of the "Judicature Ordinance" and in the matter of a certain assignment for the benefit of creditors, dated the 8th day of August, 1902, wherein Frederick M. Shonites, of the Town of Edmonton in the Northwest Territories, Merchant Tailor, is assignor and James J. Dunlop is assignee and trustee.

NOTICE IS HEREBY GIVEN, that pursuant to the order of the Hon. Mr. Justice Scott, made herein and dated the 11th day of August, 1902, ALL CREDITORS AND OTHERS having claims against the trust estate above mentioned are required to send in to the above named trustee their claims against the trust estate, verified by statutory declaration, together with the statement of the securities (if any) held by them addressed to James J. Dunlop, Trustee of the estate of Frederick M. Shonites, P. O. Box 94, Edmonton, N. W. T., on or before the 1st day of October, 1902.

AND NOTICE IS HEREBY GIVEN that, pursuant to the provisions of the said Judicature Ordinance, at the expiration of the time so fixed as aforesaid the trustee may be at liberty to reject the trust estate of any part thereof by amongst the parties entitled thereto having regard to the claims of which he, the said trustee, James J. Dunlop, has then notice. AND he, the said trustee, shall not be liable for the trust estate of any part thereof, so distributed, to any person whose claim he, the said trustee, shall not have had notice at the time of the distribution of the trust estate or part thereof.

Dated at Edmonton, this 15th day of August, 1902.

BOWN & ROBERTSON, 87. Advocates for the said Trustee.

EDMONTON BULLETIN, AUGUST 29th 1902

HAIL INSURANCE.

The disaster at Wetaskiwin on Saturday last and the losses in the settlements north of Edmonton from the storm of Wednesday should be ample warning to farmers another season to take advantage of the local government's hail insurance scheme. So far as heard the Wetaskiwin sufferers were not insured at all. Their district had never before been visited by hail and they considered themselves safe. But that is the peculiarity of hail. No one can tell where it will strike any more than it can be prevented. The only possible protection against hail is by a system of insurance, and no system that does not cover a very wide range of country can possibly be a success. The plan adopted by the Northwest government which came into effect this season is cheap, simple and secure up to the limited amount of the insurance. Had the people who have suffered from hail been insured the payment of \$4.00 an acre would have been a great relief, although of course it would not replace the loss. \$4.00 is known about 200 applications for insurance were made at the Edmonton post office, and up to last week only three applications for payment for losses had been received. If a man gets his crop he can very well afford the 10 cents an acre which the insurance costs him, and if he loses it the \$4.00 an acre which he gets is very useful. It was thought that all danger from hail for this season had passed before these two last, and almost only, storms occurred. For up to the last week this season has been very free from hail. This may very well be a warning to farmers for future seasons to look after their insurance in good time. The system of insurance is cheap, simple and secure. Forms of application are sent by the Northwest government to postmasters, from whom they can be had on application. The application and money are sent to Regina, and the insurance is effected. Of course there are no collecting agents. And because there are none, the insurance can be given so cheaply. Ten dollars, or at most, in case of a second call, twenty dollars—insures 100 acres of crop and gives a return of \$400 in case of the crop being destroyed by hail. This government hail insurance is one of the good things which the Northwest government has done. The only trouble is that it is new and so far people have not generally availed themselves of its advantages.

AN OPEN CONFESSION.

The Toronto Star recently interviewed J. H. Brock, M. P., of Toronto, as to foreign competition with Canadian manufacturers. The Star reports him as follows:

"Mr. Brock does not agree with the wiles of the interviewers, who maintained that there was an unreasonable prejudice against Canadian-made dry goods. 'There is no prejudice against Canadian goods,' said Mr. Brock. 'People are not foolish. They buy what they think will give them the best value for the money. People like bargains. It's human nature. Why else do they rush to auction sales? And in buying dry goods they simply try to get the best value for their money, irrespective of whether the goods are Canadian, English, French, German, or from the United States.'"

"Mr. Brock believes, therefore, that the only way to educate the Canadian people into using only Canadian goods is to take temptation out of their way. That is, exclude foreign goods by high protective tariffs."

"There is no prejudice against Canadian dry goods," reiterated Mr. Brock. "The shrewd buyer knows that German goods are made with cheap labor, and that he will get better value for his money in them, and he buys accordingly."

Mr. Brock is to be commended for his frankness. Canadian-made goods are not as good for the money as foreign goods and he wants the tariff increased so as to compel the public to purchase them whether they are or not. Mr. Brock knows whereof he speaks for he is a wholesale dealer in dry goods, and interested in woollen manufactures as well.

Increasing Exports.

Ottawa, August 25.—Canada's export of wheat, according to unrevised figures, amounted for the last fiscal year ending June 30, to 36,446,357 bushels, valued at \$26,410,101 as compared with 18,936,232 bushels, valued at \$13,662,930 for the previous year, an increase of 92 per cent.

The following were our customers:

Great Britain.	33,271,876 bushels
United States.	15,086 bushels
Belgium.	1,737,376 bushels
Germany.	1,032,533 bushels

The total value of the export for the same period, of potatoes was \$680,860, as against \$366,401 for 1901. Of this the United States bought \$328,625 worth and Cuba \$231,106.

WEATHER AND CROPS.

After a full week of the finest of ripening weather, beginning on Wednesday morning, Aug. 20th, a lightning wedge occurred on Wednesday, evening, Aug. 27th. The day was bright, calm and sultry. Late in the afternoon a dust storm suddenly arose and to the north great masses of dangerous looking clouds were banked. No rain fell at Edmonton until late in the evening, but the wind was high most of the time and evidently there was a serious storm to the north. A slight rain fell in Edmonton during the night and Thursday morning opened with cloudy sky high west wind and a little rain. During the day reports were received by phone from St. Albert and Morinville that both settlements had been visited by a hail storm, on Wednesday evening. The damage to crops was reported light at Morinville but greater at St. Albert. At St. Albert some window glass was broken, Fort Saskatchewan, Star, Victoria and Battleford report no hail but heavy rain and wind. The storm is not reported to have extended south. No doubt the high wind will cause some of the crop to lodge, but fortunately there is not nearly so much long straw this year as usual.

TALKING BUSINESS.

Mayor Short received the following letter in regard to the operation of the spur track on Wednesday's mail.

Winnipeg, Man., Aug. 23, '02.

Wm. Short, Mayor Edmonton, N. W. T.

Dear Sir.—I am advised by Mr. Wm. Mackenzie to take up the matter of operating the line from Strathcona to Edmonton with you. The connection with the Calgary & Edmonton railway will be completed at once, and the line made ready for immediate operation. Having regard to the short length of the line and the limited amount of traffic which will be handled over it, it will necessarily involve a loss in operation. May I ask what the town of Edmonton, represented by yourself as mayor, would be disposed to do in connection with that matter.

An early reply will oblige.

Yours truly,

D. E. HANNA,

General Supt.

Produce Prices.

Globe: The stiffening of wheat futures in Liverpool and the generally strong tone in the Chicago market are favorable signs for grain-exporting countries. There has been an appearance of frost in southern Manitoba, but no damage has yet been reported. The news from Argentina is among the influences tending to strengthen the price of wheat. There has been a protracted drought, and the crops have suffered severely in many districts. The rain distribution seems to have tended toward the northern hemisphere during the past season. Australia and South America feeling the need of rain, while both this continent and many parts of Europe have complained of abundance.

The wheat shipments from Argentina during the past two weeks have averaged 136,000 bushels per week, as compared with 336,000 bushels last year. The condition of the crops in Argentina and the indifferent yield in some European countries have an influence already felt on the grain exchange, and will increase the monetary returns from the good harvest in Western Canada. There is a slight weakening in the price of cattle, and the easy market of the past few days has led along to a further decline, choice loads of heavy shippers selling at from \$5.80 of \$6, with other grades in proportion. This is the only line of farm produce that has been influenced by the exceptionally favorable season; the price in grain, butter, cheese and other lines being sustained by unfavorable conditions elsewhere, as well as by exceptional market conditions.

The Tariff.

Globe: The opposition press has a conveniently short memory. Does it forget the time when it was declaring that the liberals had not carried out their pre-election promises; that they had continued the tory policy of protection; that the reason the country was prosperous was because the tory policy had been maintained; that the preferential policy was a fraud, as it did not enable the British manufacturer to get his goods into this market any more than before the change? This is the substance of many editorials which appeared in the columns of our contemporaries a year or two ago; it was the substance of many a tedious speech in parliament. These contentions, however, are now abandoned, and we have in their place the assertion that the liberal fiscal policy is a departure from conservative policy, and that the British preference is letting in a regrettable quantity of British goods. This being admitted, surely those who hold that good or bad times are largely the result of proper fiscal regulations cannot deny that the liberal tariff policy is not unfavorable to prosperous times, but must be regarded, indeed, as a promoter of prosperity.

PRINCE ALBERT.

Times, Aug. 18.

The rain has kept up faithfully for two days now.

All the farmers are busy haying. They say there will be plenty of hay this year.

Harvesting will be general in two weeks. The yield promises to be about the same as last year.

Free Press Crop Report.

Regina reports 5,000 acres, or five per cent of the crop cut on the 25th. The average yield is estimated at 37 bushels.

Qu'Appelle reports on the 25th that the cutting of barley and oats began the previous week.

Moose Jaw reports on the 24th that cutting would begin on the 25th. The crop was the largest in the history of Moose Jaw.

Brandon reports on the 25th that cutting has begun on high land and that it will be general in the latter part of the week.

Emerson reports on the 25th that 80 per cent of the wheat is cut, and that the average yield will be 27 bushels per acre.

Hamioka reports on the 25th that ripening has been retarded by rains and that cutting will not begin until the latter end of the week.

Baldur reports twenty per cent of wheat cut on the 25th, and that 90 per cent would be cut by the end of the week. Average yield estimated at 20 bushels an acre.

AGRICULTURE.

The new bridge between sections 27 and 28 is now completed and is a great convenience to those living in the neighborhood. Mr. W. G. Alton, bridge foreman, under whose direction it was built, has done excellent work and has built a bridge that does him credit.

During the recent heavy rains the water has risen so much that it has been found necessary to stop making the drain to Point aux Pins creek as men could not be induced to work in it. Until this drain is completed, the only way that can be travelled in a very rough state, namely that from Mr. Ross's to Mr. W. Walker's and there is no other road that can be used.

The condition of our roads is so bad that farmers are beginning to realize that the present mode of doing statute labor can no longer be tolerated unless the department of public works can evolve some scheme for efficient drainage which is the most important of all road work.

Crops are ripening fast and the growth of the last three weeks has been something of a surprise.

A DEVASTATING STORM.

A terrific hail storm is reported from Wetaskiwin. The storm occurred about five o'clock on the evening of Saturday, the 23rd. It began at a point a few miles southwest of Wetaskiwin and swept eastward completely devastating the crop in a well settled farming district 25 miles long by seven miles wide. The hail stones were of immense size and were accompanied by a terrific wind, which unroofed a number of buildings. Teams ran away, window glass was broken, fowls were killed and wild ducks and prairie chickens were destroyed in thousands. A very large proportion of the district was under crop and it is estimated that the loss is not less than 200,000 bushels. The hail stones were so large that on Monday afternoon many of them had not entirely melted. Several orders had been given for threshers in the district affected and many orders for binders and twine. The orders for machinery have been cancelled and the twine returned. The crop was just about ready to harvest and all danger was supposed to be past. The district affected had never been touched by hail before and there was little or no insurance. The crop has been literally battered into the ground so that it cannot even be raked up for feed. During the storm a man was killed, supposedly by lightning, about four miles east of Wetaskiwin. This is the only death reported so far. Fortunately most of the farmers affected are or were in comfortable circumstances and are not as much distressed as if the conditions had been different.

In Wetaskiwin there was a sharp shower of rain and high wind, but no hail.

SOCIAL AT ASTLEYVILLE.

Contributed.
A very pleasant evening was spent at the residence of H. Astley, "Park View Farm," Astleyville, on Tuesday evening, Aug. 19th, when an excellent programme was rendered. Tea was served in the large tent from 6 to 8 o'clock. After which the people present from far and near adjourned into the large sitting room to spend the rest of the evening.

The programme and training of the children was in charge of Mrs. Astley. The programme is given below:

Prayer.
Opening remarks, Mr. Gourlay.
Instrumental selection, Prof. S. Jones.

Quartet, "Saviour Lead Me," Mrs. Oliver, Mrs. Astley, Rev. Mr. Forbes and Mr. C. Jones.
Song, "Sweet Bunch of Daisies," Miss Mabel Brenner.

Cello solo with piano accompaniment, "Mermaid," Miss E. Astley and Mr. C. Jones.

Vocal duet, "Jesus' Little Lambs," Miss E. Astley and Miss Etta Taylor.
Recitation, "The Pied Piper of Hamelin," Mr. Fred Skoog.

Quartet, "The Ark Lull," Miss Etta Taylor, E. Astley and Master R. Gibbons.

Duet, "Lambour Watch," Rev. Mr. Forbes and Mr. C. Jones.
Recitation, "We Lost My Kitty," M. as Gladys Crail.

Song, "She Wore a Wreath of Roses," Mr. Skoog.

Violin duet, piano accompaniment, Mr. C. Jones and Mr. C. Brumfit.
Reading, "Mrs. Ward's Visit to the Prince," Mr. Ogilvie.

Song, "The Land of the Living," Rev. Mr. Forbes.

Quartet, "A Place for Everything and Everything in its Place," Miss H. Lewis, E. Astley, and Master Arthur Lewis.

Song, "Beautiful Isle of the Sea," Mrs. Astley.

Instrumental Selection, "Bonnie Sweet Home," with variations, Prof. S. Jones.

Duet and quartette, "Sweet Peace," Mrs. Oliver, Mrs. Astley, Rev. Mr. Forbes and Mr. C. Jones.

Reading, "The Custer's Story," Mrs. Astley.
God Save the King.

Lethbridge, News, Aug. 20.—A bad case of small pox developed in a grading camp on the Great Falls & Canadian, near Collins, last week. Evidently too close a watch cannot be kept at the boundary on people coming in from the south.

THE SPUR TRACK.

The following letter was received by Mayor Short, from Wm. MacKenzie, president of the Canadian Northern railway in reply to a letter calling the railway company's attention to the delay in putting the spur in condition for operation:

W. Short, Mayor, and K. W. MacKenzie, Esq., President of the Board of Trade, Edmonton, N. W. T.

Dear Sirs: Your letter of 6th August 13th, in reference to the operating of the spur line from Strathcona to Edmonton, received.

Arrangements were made some time ago for the Calgary & Edmonton railway to run from Strathcona over to Edmonton, and handle whatever traffic there might be from Edmonton. The slides that occurred on the railway last spring delayed the operating of the line. It is not already put in shape, it will be within a very short time, and so soon as it is ready the road will be operated either by the Calgary & Edmonton, or we will arrange to send an engine and cars to operate it ourselves.

You can assure the people who are thinking of building elevators, that there will be no question about their being able to have the grain taken away from Edmonton.

Yours very truly,

WM. MACKENZIE,
President.

HOTEL ARRIVALS.

Saturday.

Alberta.—A. F. Tero, Spokane, Wash.; J. B. McCoy, Tacoma; W. B. Safeld, Calgary; H. M. Harris, Vancouver; Jas. Watts, T. G. Green, F. Murdoch, J. F. Fowler, A. G. Watson, A. C. McKee, J. R. Elliott, Winnipeg; Miss Croes, Miss Marsh, Toronto; Miss Collins, Essex; R. Holmes and wife.

To Handle Grain on a Half Cent Commission

An important movement, says the Tribune, is being consummated, which is doubtless destined to have a far reaching and beneficial effect upon the farmers of Manitoba and the Northwest Territories.

The losses which the farmers have annually sustained in the price of their grain have been very large because of the grip which the manipulators and corporations had upon them. In order to reap the benefits of the concessions of freedom in shipping, it must be self-evident to the farmers that they should either handle their own grain or get it handled at the lowest possible margin.

As the exporting of wheat is perhaps the most important feature of the trade, and as that can only be done in combination, and not in car lots, the farmers are to a large extent handicapped. However, a company is being formed composed of some of the best and shrewdest financial men, for the purpose of handling the grain of the farmers at the lowest possible margin.

Our proposition, says the announcement of the company, is very simple, we are prepared to handle all grain from farmers for a commission of half a cent a bushel. That is, the farmers will be allowed the full market price prevailing at Fort William on the day the wheat is disposed of, less, of course, freight and other regulation charges, and one-half cent a bushel commission for handling. Load your cars, consign to us, and we will dispose of it to the best possible advantage.

MEDICINE HAT GAS.

John Dobson, of the firm of Dobson, Jackson & Fry, arrived from Medicine Hat on Monday accompanied by John Jackson Jr. The firm have the contract from the town of laying gas mains in Medicine Hat for the supply of the town with heat and light from natural gas. The work is delayed by the non-arrival of part of the material required, so Mr. Dobson took a trip to Edmonton to see the town and observe the progress of the waterworks and sewers the pipes for which are being laid by the firm.

Mr. Dobson is very enthusiastic about the results to Medicine Hat of the utilization of the vast deposit of natural gas which underlies the town. At present the town has four wells sunk to provide gas for municipal purposes. The gas from one of these wells provides fuel by which steam power is produced at the waterworks, and it has gas to burn besides. One of the town wells has a pressure of 250 pounds to the square inch. The last of the four wells was completed a few days before Mr. Dobson left and the pressure of gas had not been ascertained, but it was quite satisfactory. There are besides several wells under private ownership. One of these on the Merchants Bank property lights three stores. Another owned by Mr. Yuill supplies fuel to burn brick. Three lime kilns are operated by gas from the wells. And there is a test well in the C. P. R. yards bored some years ago, the flow from which is not put to use. The hospital is lit by natural gas. The gas is reached at a depth of 600 to 700 feet, all the wells being at that depth. The gas is very pure, emitting no smell. Indeed one of the objections to its use is that it may escape to such a degree as to be dangerous without its presence being detected by the smell. To guard against this danger it is proposed to odorize it.

The town's scheme involves the laying of five and a half miles of piping. The wells are four inches in diameter and the four town wells are connected by a four inch pipe. The mains are three inches in diameter and the distributing pipes two inches. The pipes are laid three feet below the surface. The gas is not affected by frost. Both heat and light will be supplied throughout the town, at a bare cost of interest on installing the system and cost of maintenance. The cost of installing is \$22,000, and the estimated population is 2,500. On this basis of calculation Medicine Hat will have the best and cheapest fuel and light of any place in Canada. This will give it great advantage in inducing the establishment of industries requiring cheap fuel or cheap power. The people are to be congratulated on their enterprise as well as on their luck.

In this connection it is not out of place to suggest that the possibility of finding natural gas at Edmonton is worth looking into. Possibly there is none, but the fact that the government bore at Athabasca Landing, 96 miles north, struck a considerable flow of gas would indicate that possibly there is. Further north at Boreal rapids, on the Athabasca, there is a very strong flow of gas from the well bored on oil there by the government some years ago. We have cheap fuel here, and possibly there is no rush, but if gas were known to exist in sufficient quantity for commercial purposes at Edmonton it would be of great advantage to the town.

THE MINES.

J. H. Robinson, of Roseland, arrived on Saturday's train on a prospecting visit to the Edmonton district. He reports that business is improving in the mining districts. At Roseland, Le Roi No. 2 is working a full force. Le Roi No. 1 has a small force at work. The Giant, owned by the company of which ex-lieutenant governor Macdonald is the head, is working a small force. The Centre Star and War Eagle, owned by the Goodwin-Blackstock syndicate, are also working a small force. The Green Mountain mine is also working on a small scale. Le Roi ore is treated at the Northport smelter, which is owned by the Le Roi company. The ore from the rest of the Roseland mines is treated at Trail. The freight and treatment charge is \$1.50 a ton. The principal cause of the Roseland depression is the low price of copper. The Roseland ores carry copper and gold, and the copper forms a large proportion of the value. A fall in the price of copper has just the same effect on the mine as a fall in the price of wheat has on a farm. The fall in the price of copper has been followed by efforts to cheapen the cost of production. Smelter charges have been reduced and new processes are being looked for. Great hopes are being entertained regarding this process of concentration. If this proves a success and copper does not fall still further the mines will boom.

And if copper goes up the mines will boom anyway.

In the Kettle river country the mines connected with the Granby smelter at Grand Forks are producing vast quantities of low grade ore. The cost of mining is so low that even at present prices of copper it produces a profit.

The Lardeau district of which Ferguson is the chief town seems to be doing fairly well. The C. P. R. have completed their railway from the head of Kootenay lake to Trout lake and have given an outlet to the mines. A new smelter has just been blown in at Ferguson and the prospects are good. The properties here are silver lead. At Camourne in another part of the Lardeau there are some very desirable free milling gold prospects which are attracting very favorable attention.

EDMONTON BULLETIN, AUGUST 29th, 1902

CANADIAN MANUFACTURES
AND FOREIGN COMPETITION.

An alleged liberal paper in Toronto is publishing a series of interviews with prominent manufacturers and others of that city with the avowed object of getting ideas as to what can be done to induce Canadian people to purchase a larger proportion of goods of Canadian manufacture than at present. The unanimous answer which it receives from manufacturers is "Increase the duties." Possibly this is the answer it desires, and its interviews are merely planned with the view of having it appear that the weight of Canadian public opinion is in favor of such increases.

But there are other answers to the question. Naturally every Canadian would prefer to buy Canadian made goods if he got equal value for his money with the foreign made article. If he does not buy Canadian goods it is simply and solely because they do not offer equal value. Therefore the logical and necessary answer to the Toronto paper's enquiry is "Let Canadian makers improve the quality of their goods up to modern standards and employ modern business methods."

The trouble that the Toronto paper is enquiring about is not with the purchasing public but with the makers of the goods. The effort of its interviews is to make it appear that this trouble is the other way. In other words it is busy engaged in the effort to flim flam its readers on the question of tariff increase. It does not need any argument to prove to any ordinarily intelligent tax payer that it is in his own interest to patronize home industry, if it were for no other reason than to lighten the burden of his own taxation by increasing the tax paying power of his fellow citizens. The Canadian people are sufficiently intelligent to feel that this does not need to be even explained to them. If they do not act in this matter as their own selfish interest would seem to dictate, it is because the seeming is not real. That is that the loss from the purchase of an inferior article or the payment of a higher price for an article of like quality, over-balances in direct loss to the purchaser the indirect gain that would result to him from the aid that his purchase would give a home industry. That is one reason and the only other reason is that the goods and their quality have not been brought favorably to his attention.

Although the Toronto paper is not looking for that information, possibly a little from the purchaser's standpoint would not be out of place. Just as a preliminary it may be remarked that a time when the Canadian people are buying more Canadian made goods than ever before seems a strange time at which to institute an enquiry of the kind they are not buying more. As a matter of fact the Toronto paper's enquiry has developed that Canadian manufacturers of merit have a practical monopoly of the Canadian market. This is true of furniture, of farm and road vehicles, of pianos and organs, of farm implements generally, excluding machinery. But on one excuse or another the manufacturers of these articles are quite ready to join in the demand of other manufacturers for higher duties. The reason these articles of Canadian manufacture have a monopoly of the Canadian market is because they are quite as good value for the money as the foreign made article. And the reason they are as good value is because the conditions have invited and made possible practically unlimited competition between the large number of Canadian manufacturing firms. In order to excel each other they were compelled to equal or excel the foreign product at the price and they have done so. The great Canadian manufacturers which complain of the large proportion of foreign sales are cottons, woollens and farm machinery. The conditions surrounding these three industries have never been such as to induce home competition as to excellence. The factories are few in number, they are on a large scale. It is easy to arrange prices amongst themselves. The outsider was the only competitor, and under the old system he could be kept out by the duty. These three industries have always been worked as tariff protected monopolies, and consequently the reduction in duties is at once felt in the increase of sales of the foreign product. They have depended on the tariff for their business and not on the excellence of their product. They never tried to make a better article than the foreign product. They have never claimed to do so. Their utmost claim has been that the Canadian made is as good. And the fact has been that there was always approximately a dif-

ference of the amount of the duty between the value of the home and foreign product. When Canadian manufacturers label their goods "Made in Canada," as an evidence of superior merit will be time enough to hold an enquiry as to why so much foreign goods are sold. And when that point is reached there will be no cause for such an enquiry.

The very fact that an enquiry of this nature is being made is evidence that the manufacturers are in fault, or that they do not know their business. The Bulletin would respectfully suggest that papers anxious to serve the interests of the manufacturers institute an enquiry as to the best means of promoting the sale of Canadian manufactures in foreign countries. It does not need an enquiry to prove that the first essential is an improvement in the quality of Canadian manufactures.

ELECTION PROTEST.

A protest has been entered against the return of Daniel Maloney, for the electoral district of St. Albert. Augustinus Leblanc is the petitioner. Following is the text of the petition:

In the Supreme Court of the Northwest Territories, Northern Alberta Judicial District;

The petition of Augustinus Leblanc, of the Village of St. Albert, in the district of Alberta, laborer, sheweth:

1. An election was held on the 21st day of May, A. D. 1902, for the electoral district of St. Albert at which Daniel Maloney (the above named respondent) and Louis Joseph Alphonse Lambert were candidates, and the said Daniel Maloney (the respondent) has been certified to be the person elected at such election.

2. The petitioner was a duly qualified elector at such election.

3. The petitioner says;

(a) That the said Daniel Maloney (the respondent) did, by himself and his agents, commit divers acts in contravention of section 123 of the "Territories Election Ordinance (C. O. 1898 C. 3), and other divers acts in contravention of section 124 of the said ordinance, and other divers acts in contravention of section 125 of the said ordinance.

(b) That one Henry William McKenney was the returning officer at the said election, and Jules Chavex, Adolph Perault, T. J. Walsh, Nathaniel Logan, one Beauregard, and J. O. Lavelle were respectively some of the deputy returning officers at the said election, and that the said returning officers and the said deputy returning officers, respectively, did not act faithfully in their respective offices, without partiality, fear, favor or affection, but on the contrary acted in the interests of the said Daniel Maloney (the respondent) and against the interests of the said Louis Joseph Alphonse Lambert, and endeavored to procure the return of the former, and the defeat of the latter, for that end, committing divers breaches of the duties imposed upon them by reason of their tenure of the said respective offices, and that but for the wrongful acts of the said returning officer and the said several deputy returning officers, the said Daniel Maloney, the respondent, who was certified elected by only twelve votes, would not have been certified elected, but on the contrary the said Louis Joseph Alphonse Lambert would have been declared elected.

4. The petitioner therefore says that the said Daniel Maloney, the respondent, was unduly elected and unduly returned as the person elected at the said election.

Wherefore, the petitioner prays that it may be declared that the election of the said Daniel Maloney, the respondent, is void and that it may be set aside.

Dated the 25th day of August, A. D. 1902.

(Sgd.) AUGUSTINUS X. LEBLANC,
mark.

Witness, N. D. Beck.

Harvesters Will Become Residents.

Toronto World, August 22.—Harvest excursionists again had control of the Ontario railroads Thursday. Three thousand passengers were handled for the Northwest grainfields. This was several hundred in excess of Wednesday's traffic, and to-day the crowd is expected to reach even heavier proportions. Railroad officials assert that they believe the total of 19,000 carried to the Northwest during the cheap rates of last year will be exceeded this year by probably 5000.

The majority of them are to become permanent residents of Alberta, Assiniboia, Saskatchewan, and Manitoba. The others will work in the harvest fields of those sections, do some prospecting and return to their former homes, but most of them hope to be able to return to the Northwest next year to remain permanently.

Three-fourths of these immigrants are middle-aged people—farmers of some means in their communities. These are the people who are going west to remain. Those who are taking advantage of the rates to work a month or two on the farms in the western country are generally young men. There are many young women to be seen. They, too, will remain in the new country. Most of them have been promised situations.

The Alberta, Aug. 23.—The first harvesting in the Calgary district began yesterday. Major Walker started reaping his wheat. The wheat is of a very excellent quality and this year will be very good.

DEATH OF A FORMER EDMONTONIAN.

The Sandon Paystake of August 2nd, has the following regarding the death of T. B. Follitt, of that place and formerly of Edmonton. Mr. and Mrs. Follitt removed to Sandon from Edmonton in 1897. He leaves a widow and one child, a daughter five years of age.

"Sandon lost one of its most respected citizens on Saturday morning, July 26th, in the death of Alderman Thomas B. Follitt. For some time he had not been feeling well; in fact since January last he was known to be a victim of bright's disease. He purposed closing up business at an early date, taking a trip east and having, if necessary, an operation performed, but there seemed no immediate cause for alarm. On Friday he was about his work as usual, but on Saturday was suddenly taken sick and was unconscious from 9 o'clock to 11:30 o'clock, when he peacefully passed away."

Keeps Coming.

Free Press, August 20.—Construction work on the extension of the Canadian Northern railway is progressing satisfactorily. The graders are now at work on the west side of Shell river beyond the Duck mountains and one hundred miles will be completed before the end of October. The company will shortly begin forwarding track material to Grand View, but it is thought that the amount of track laid this season will be small. The line will pass through some magnificent prairie country for many miles. A large number of homesteads have been taken up west of the Duck and Riding mountains; in addition much land has been purchased by intending farmers and stockmen, and the extensive tract is being colonized by an American syndicate west of the Assiniboine river, so that by the time the new extension is ready for operation there will be a good settlement contiguous to the route. This section of the country will certainly soon be heard from in the matter of grain and stock. Government and railway land surveys have been in the field all summer actively engaged subdividing the country, but have scarcely been able to keep in advance of the land hunters. The railway company's land will be on the market shortly.

The Canadian Northern company are also vigorously prosecuting construction operations on the line through the Red Deer and Carrot river districts towards Prince Albert. The contractors have large gangs at work and it is evidently the company's intention to do all the grading possible before snow flies. There is naturally much speculation regarding the probable crossing points on the South and North Saskatchewan rivers, but this interesting information has not yet become public property. The northern line will touch at or near Prince Albert, while the extension from Grand View will cross the South Saskatchewan at a point some miles farther south.

Kipling Scores a Bull's Eye.

London, Aug. 18.—The Daily Mail publishes the report of a speech delivered by Kipling at the opening of a rifle range at Lower Sydenham. The range is constructed by the Jaeger Clothing Company for the use of their employees.

Mr. Kipling said that if people took up drill and rifle shooting they would enter into a new and most fascinating world, full of interest and god-fellowship. They would find they had got to discover themselves all over again. Above all they would find that they would at all times have to keep themselves fit. The Jaeger company, quite apart from the patriotic side, seemed to him to be doing a good stroke of business for themselves, because the worst investment a company, an employer, a municipality, or a nation could have was the unfit man, and they would find that drill and rifle shooting properly followed would make them fit in mind, body and estate. The little target taught the proud man humility. It taught the inaccurate man to try to be accurate, and if a man had been out on what he had heard called "the tiles," that little target would check him as automatically as a doctor. The one thing they must all be able to do was to be quick with the shots. Everything must be subordinated to getting their shots off quickly. That was the first and last use of the "game" as far as they civilians were bound to consider it. This club he hoped and believed was the forerunner of many other clubs of a similar nature. In a little time there would be thirty to forty clubs all interested in long ranges, and then they would get the longer ranges, and would be able to play the little game of shooting on a larger scale more often year by year. This they would hope that the next time the nations of the earth saw fit to love them with that love that found such perfect expression during the last thirty months, we on our side might not be found wholly ignorant of one or two of those less spiritual accomplishments which, if they did not secure affection, at least commanded respect. He wished the range "all the luck in the world."

The Alberta Land Company

Has 30,000 acres of as fine land as can be selected in
Beaver Lake, Vermillion and Birch Lake country.

These lands are adapted to both raising grain and stock. There
are three lines of proposed Railroads running through this part
of the country. These lands can never be bought cheaper than
now. We are selling every day and they are not going to last
long. Improve the opportunity and place your money where
you are sure of securing a good profit by the investment.

Many invest in Mining, some in Oil, some in Bonds; only a few
reach the goal; the rest find their hard earned money gone with
only a piece of nice paper to tell the story. Why not buy a
piece of land one-half mile [] to look at and see it increase
from year to year in value until it makes you and yours a nice
little fortune? It will surely come. It is only a question of
time.

We solicit your trade. Call or write and get maps and informa-
tion of these cheap lands.

LEUC.

Crops are ripening very fast, the last few warm days. Wheat and oat harvesting has commenced in several localities and will soon become general throughout the district. Indications point to a heavier yield of grain and straw than last year.

Building operations in town are being pushed with all possible speed. The framework of Wade's pork curing establishment is nearing completion.

E. Kirkpatrick will erect an addition to the Island Hotel. The new part will be three stories high, 30x55 feet. Work commences on it this week.

The new Baptist church will be dedicated on Sunday, Aug. 31, by Rev. A. McDonald.

Rev. G. Schanke is building a new, German Baptist church hall at Sarona. A. B. Bush, of Conjugating Creek, exchanged his farm on Tuesday with T. Telord for a number of village lots. Mr. Bush expects to erect cottages on his lots shortly.

Mr. Bush has also secured an 11 acre lot on the high northeast bank overlooking Conjugating lake and proposes making a summer resort there. His plans are outlined by him to the Bulletin are complete in every detail. A two story hotel 20x40 feet will be built and conducted by himself. Six small cottages will be erected along the shore, furnished and provided with a small bath each. These he will rent to visiting parties for \$1.00 a day. Swings, boats, a dancing booth and other attractions are proposed and if the resort receives the support that Mr. Bush thinks the beauty and attractions of the spot warrant, a steamer will be built next year. Conjugating lake is situated about 20 miles southwest of Leduc. It is 8 miles in length, winding through its high banks like a river, it is surrounded by a beautiful growth of large birch, spruce and poplar trees which greatly enhance its beauty. The saw mill is at the north end, Telord will provide transportation from Leduc depot. The trail is to be improved. Those who have visited the lake are loud in their praise of its natural beauty and as fish and game are abundant it cannot but be a suitable summer resort.

Inspector Bryan paid an official visit to the school on Friday. The attendance is now about 30. Baseball is the prevailing school yard past time for the younger generation. Mrs. R. T. Telord is visiting friends in the States. Rev. Richard Hobbs, of Wingham, Ont., occupied the Methodist pulpit on Sunday evening last. Mr. Hobbs is one of the London conference delegates to the general conference to be held in Winnipeg next month, and is previously making a tour to Alberta and visiting his son William, who is teaching school at Victoria. J. Turner has purchased a lot adjoining the post office and will build a harness shop and remove from his present quarters east of the track. Raspberries are very plentiful throughout the district. D. Monroe arrived on July 9th and has gone into partnership with Dr. Sutherland. A. Alpaugh, of the 5th C. M. R., has been visiting his parents at Conjugating lake since his return from Africa. A week ago. On Tuesday he left for Calgary. Previous to joining the force Mr. Alpaugh worked in the Fernie coal mines in company with another young man who was killed in the disaster of May 22. Mr. Alpaugh's regiment sailed from Halifax on May 23rd and he knew nothing of the disaster till his return to Canada. Telord's planing mill has begun work and gives good satisfaction. The lacrosse team are arranging to visit Edmonton on Monday and wipe out, if possible, the defeat of coronation day.

HORSE HILLS.

Civilization is marching on. Application has been made by Robert McLean, of Edmonton, Alberta, for a hotel license in respect of the premises situated on N. W. 1-4-S-54-23 W. of the 5th meridian. Mr. McLean drove through the settlement lately with the petition for signers. He is now building a hotel and will run a general store in connection. The hotel and store are needed. But the sale of intoxicating liquors in the midst of the rising generation, would be a blight on this fair land of ours, "where every prospect pleases and only man is vile." The green fields of grain are now changing to a golden hue. The spring is past, the summer ended, and a beautiful harvest awaits the reaper. It is hoped the C. P. R. will give cheap rates through to Edmonton. As harvest help is going to be scarce. A. Corbett and R. Corbett started cutting wheat on Monday. P. Skelington has also commenced cutting wheat. A. McLeay and Jeff. Lewis commenced cutting oats on Thursday. Chas. Corberand is now building a fine mansion on the banks of Chable's creek. The building is evidently far too large for one person. The roads and bridges from Edmonton to Fort Saskatchewan are excellent. Heavy loads can now be transported with ease. Traction engines should comply with the law, and not break down our bridges, which have cost so much money to build. Rev. Mr. Goulin, Presbyterian missionary, holds divine service at 11 a. m. every second Sabbath at the school house. The meetings are well attended. Scotland sent St. Patrick to convert the Irish, now Ireland has sent a fisherman to convert the Scotchman at Horse Hill.

Aug. 26, 1902.

PONOKA.

Herald, Aug. 22. The Ponoka Wholesale liquor store is open for business.

Mrs. John Wilcox, who was taken to Edmonton in a precarious condition, is reported as rapidly improving.

Mrs. Henry Dick, whom we reported very low last week, has since gradually improved and the symptoms this week are that she will soon be convalescent again.

Messrs. Armstrong and Bennett will shortly embark in the banking business at Ponoka. A bank has long been needed by our citizens, and the town is fortunate in securing a bank under the management of such a reliable and experienced firm.

Ponoka will shortly boast the best photo studio on the C. & E. line. The building erected by W. J. Milne is a good substantial one, with dwelling rooms on the first floor and the second story conveniently arranged as an up-to-date gallery.

W. G. Cervenay has harvested his rye and winter wheat west of the village. He will resow the wheat as soon as he can get it threshed as Will's first year's experience has convinced him that winter wheat will do well here.

F. C. Case has purchased of Cook Myer lots 2 and 3 in block 3 on Railway street, the property of the Alberta House. The buildings now on the property will be removed as soon as Mrs. Shary moves into her own building, and we understand the present owner will erect a good building in their stead.

MACLEOD.

Advance, Aug. 19. It would seem that the MacLeod court house is to be at last gone on with the department of public works, Ottawa, having already called for tenders for the erection of such a building here. The size of the building to be 34x56, to be constructed of brick, ornamented with cut stone facings, a building, we are told, very similar to the one in the town of Regina. The advertisement calling for tenders for the construction of this important government building at MacLeod will be found in this issue of the Advance. It will be seen that tenders will be received up to Thursday, September 4th, and it is thought that outside work on the building will be completed before bad weather sets in. The plan and specifications are now in the hands of Mr. John Ryan, arc, from whom forms of tender may be obtained.

The new building is handsome in design, being not too long, a roughed wider than the present court house, and will fully meet the requirements of the district for a long time to come. The town square has been selected as the site for the new government building.

A Labor Man Talks.

A. W. Puttee, M. P., returned to Winnipeg recently after a trip to England. Speaking of his visit generally, says the Free Press, Mr. Puttee found that Canada and Canadians are becoming better known and understood than has been the case in the past. The Canadian arch in Whitehall was the decorative feature that attracted the widest attention during the coronation ceremonies. As permission was obtained to let the arch stand until the coronation on the 9th, it became the latest point of interest in London, and Canada, as "Britain's granary," was thereby brought to the attention of millions in a more striking way than ever before. It was a beautiful conception, belonging really to Western Canada, the idea being suggested by the grain arches erected on Main street last September on the occasion of the visit of the Duke and Duchess of York. It was the biggest and cheapest advertisement that we, or anybody else for that matter, have had in the great city. Winnipeg and the west are in people's thoughts now, and if the trip of the Tunisian was any criterion, they are coming to the country to see for themselves. It is not hard to get people from the cities to come to our cities, but there seems to be a lack somewhere in getting information to the people in the rural districts of Britain, to the manual worker and the small farmer whom we want in the Northwest.

More Harvesters Than Last Year. Toronto, Aug. 21.—The harvesters' excursion promises to be very heavy to-day. Yesterday 2,024 left for the west as compared with 1,637 in the corresponding day last year. The second day is usually much heavier. Last year 2,800 went on the second day and the railway officials expect to carry 3,000 to-day and will send out more trains if necessary. To-day's exodus centres in Toronto and all incoming trains are bringing in such heavy trainloads that they are all late. Territory covered to-day is the G. T. R. main line west of Toronto, the C. P. R. main line to Guelph, and stations north of Cardwell Junction. The C. P. R. will grant a second excursion August 30, Sept. 1 and Sept. 2.

Lethbridge News, August 20.—Mr. T. F. Kirkham last week made a trip along the irrigation canal as far as Spring Coulee, and as a result of investigations made on the spot completely exonerates the company from any blame whatever in regard to the non-delivery of water since the floods played havoc throughout the country. The company, he says, is making strenuous efforts to repair the damage done by the abnormal weather conditions of May and June, and are expending thousands of dollars in an endeavor to expedite the work.

Victoria.—A. Krump, S. P. Druer, G. H. Ryan, Rae; W. Flynn, J. Cousineau, M. Clark, St. Albert; D. Demers, P. Martel, St. Emile; W. B. Wilson, London.

Diseased Immigrants Excluded.

Ottawa, Aug. 20.—An order-in-council has been passed for the issue of a proclamation putting in force "an act to amend the immigration act," passed last session.

In view of the large number of immigrants who are now coming from foreign countries to Canada and to the United States via Canadian ports, it has been deemed expedient to prohibit the landing in Canada absolutely of any immigrant or other passenger who is suffering from any loathsome, dangerous or infectious disease or malady, whether such immigrant or passenger intends to settle in Canada or only intends to pass through Canada to settle in some other country, and whom the minister of the interior or officer to whom he entrusts the matter considers ought not to be allowed to land in Canada. The minister of the interior gave such instructions for the enforcement of the act as he sees fit.

Col. Prior for Premier.

The following is a statement by Hon. Joseph Martin in an interview in Vancouver:

"I expect from reports that I have heard, but not from direct statements to myself, that soon after Mr. Dunsmuir's return, he will resign the premiership and that Colonel Prior will step into his place. In case this is done I do not know what the results will be. I consider Colonel Prior as, perhaps, the best choice that could be made by the present government to succeed Mr. Dunsmuir."

Hail in Ontario.

Bothwell, Ont., Aug. 21.—Bothwell and vicinity were visited yesterday afternoon by the worst electric hail storm ever known here.

The storm lasted about 45 minutes, and cut everything in its course, the hail lying on the ground two or three inches in depth.

Matthew Graham, who lives near Florence, was killed by lightning, and his barn and crops destroyed.

Lethbridge News, August 20.—The department of public works of the Northwest government announces the adoption of new regulations regarding the leasing and fencing of road allowances, in the ranching districts, which will no doubt interest those concerned. A year ago the department passed regulations providing for leasing of road allowances, which were not required by the public or were not fit for public travel by reason of natural features, a lease rental of \$1 per mile being charged. It was claimed by some that this rental was too high, and the department, after full consideration, has decided to reduce this to \$2 per mile, but at the same time to insist upon a strict enforcement of the regulations. Applications for leases will have to be made to the department before the 31st inst., failure which proceedings will be taken under the ordinance for the illegal obstruction of the public highways. Having acceded to the contention of those who desired a reduction in the rental, the department will insist upon a strict enforcement of the law on the new basis.

A Decrease in the Gold Output

Toronto, Aug. 6.—Some of the social and economical conditions in the Yukon are touched upon in a report made by George H. Hess, chairman of the commercial intelligence committee of the Canadian manufacturers' association, to the association, and which appears in the current issue of Industrial Canada. Mr. Hess went to Dawson City early in June last to investigate affairs in the Yukon in the interests of the association. Mr. Hess points out that the number of business houses in Dawson is on the decrease, there being now about 67, which include several large transportation and trading companies owning their own steamers and trading on a large scale. The buyers of these companies make semi-annual trips to the east, buy a whole season's supply of goods, and have them ready to ship up the Yukon on the opening of navigation.

The fabulous prices that once ruled for all the necessities of life in the Yukon are now of the past, although many of the prices in Dawson even now seem to the customer unnecessarily high. At one time, Mr. Hess states upon the authority of Governor Ross, a dollar in the east would buy as much as six dollars in Dawson, but the difference now is one to four and a half. No coin less than 25 cents is used in the Klondike. The three daily papers—smaller than one cent papers—sell at 25 cents each. \$4 a month, \$40 per year, in advance. All drinks, hard or soft, 25 cents, but all mixed liquors 50 cents, poor cigars 25 cents or three fair ones for \$1. A leading barrister thought he had passed the period of being surprised at Dawson prices, but one morning when he was charged 25 cents for a pair of common shoe laces, he thought the price rather steep. Rents are very high. An office that rents in Toronto for \$30 a month would bring \$130 in Dawson. Small shops rent from \$10 to \$20 a day, in advance. Dining room girls get \$100 per month, and house servants from \$75 to \$125 per month. Hotel charges are more reasonable. A small room, \$2.50 per day; breakfast or lunch, 75 cents, and dinner \$1. The meals are better than might be expected under the circumstances. Sample rooms for \$5 to \$10 per day; hauling baggage, \$1 per piece.

Dawson has two banks, which charge interest at the rate of 18 per cent, per annum. Mr. Hess makes this statement in his report: "I quoted to Governor Ross the remarks recently made in Toronto by Mr. Wade in a lecture before the Canadian club, which were afterwards published in pamphlet form and scattered broadcast throughout Canada. "I have permission from Mr. Senkler, Canadian assistant gold commissioner to use his name, as saying, The output of gold in the Klondike last year was over \$24,000,000. The production of the coming year, according to the government's estimates, will not exceed \$14,000,000, a falling off of nearly one-half. The reason for this large decline is that the old creeks of 'finds' are being worked up, and no new discoveries have been made for more than a year." The hope of the Klondike now is the discovery of gold-bearing quartz of sufficient richness to pay to work. So far no such quartz has been discovered."

Many of the mines on the creeks, Mr. Hess states, are being worked to their full capacity. Many are working over their second or "tailings," and many of the mines have been worked out and abandoned. It will take many years—some say ten to twenty years—to work out the mines already discovered. The mines are now in the hands of those who have capital to work them, and they are being worked for all they are worth. It only follows, unless new fields are discovered, and smaller every year, that the yield will grow smaller. There is now in Dawson a great surplus of laborers, who are ready and eager to go to work. Mr. Hess was told that there are ten applicants for every job available, and yet boat loads after boat loads of adventurers are arriving almost daily to swell the crowd of idlers. Knowing these conditions and seeing in almost every issue of the Seattle, San Francisco and other papers the glowing accounts of the Klondike, he cannot help feeling that the transportation companies are responsible for those alluring stories.

More Gas at the Hat.

News, Aug. 21.—A good flow of natural gas was struck in well No. 4 on the municipal system last week. Gas was found at 615 feet, and the flow increased as the drilling progressed. The well was drilled 765 feet. The gas vein is evidently opening out, as the flow is getting stronger every day. It is expected that this well will complete the town system or the present. We have been fortunate in finding gas in all the wells drilled.

Free Press, Aug. 21.—Manitoba is now enjoying typical harvest weather. If it continues the province will not have anything but No. 1 hard wheat to offer for sale this fall and grain buyers' avocation will be greatly simplified. As there are practically no weeds in the crop there will be no cleaning necessary and the farmers' lot will indeed be a happy one.

As to Butter.

Frequently one hears complaints about white thread-like streaks appearing in butter. This is sometimes due to errors in the salting and working of the butter. If the salt be added to the butter while the latter is still in the granular condition, and not in too large quantities at a time, so that it may dissolve quickly and be distributed throughout the mass of butter to some extent before working begins there will not be so much trouble from streakiness. If, however, working is begun before any salt has been added, as is sometimes the practice, the salt is then thrown on the smooth surface from which the water has been removed, and the result is that the salt does not dissolve readily, but remains for some time in a partially dissolved layer between the surface of the butter. There is, probably, a bleaching of the butter by the chemical action of the salt in such strong solution, the effect remaining in the shape of white streaks when the undissolved salt finally disappears.

"Mottled" butter is a different thing altogether, although it is also the result of not having the salt evenly distributed, either through careless addition of the salt, insufficient working, or working at unsuitable temperatures. The parts which contain the most salt have the deepest color; this is the natural effect of the addition of salt to butter in proper quantities. It is when the salt and the butter come together in layers, and remain so for some time, that the bleaching occurs which causes the "streakiness."

As J. A. Riddick, chief of the dairying division, has pointed out, time after time, the commercial value of Canadian butter can in no way be more easily advanced than by paying the utmost attention to finish and appearance. Use good parchment paper so as to fully protect your product. Avoid slovenliness in putting up butter for exportation; use black and not red stenciling, because in the British markets red stenciling is the outward and visible sign of inward "milled" or "indie stock," or very inferior grades of butter.

The possibilities of the export butter trade are limited only by the available supply, provided the quality be honestly and constantly maintained at "excellent." This is shown by the fact that while in 1890 the export butter trade of Canada amounted to only \$840,131 a year ago it exceeded \$5,100,000, and the exports of butter in 1901 was nearly double that of 1900, and exceeded in value those of any previous year.

During last summer there was a falling off in Canadian butter exports, brought about by the comparatively high prices which our cheese was fetching; for as cheese was paying better than butter the factory men kept on making it. To-day there is a loud cry in Great Britain for Canadian butter of high quality, and, if our dairymen respond expeditiously, 1902, will be the banner year in Dominion history so far for butter exports.

A need in the butter business is better buildings in the creameries—improvements in construction, in their drainage appointments, and in their equipment. These changes must be effected or we cannot expect to hold a prominent place in markets against our progressive Danish, New Zealand, Victorian, and Russian, and other competitors.

It is necessary, also, to provide for pasteurizing the cream from which butter is to be made for export. Among the various minute and low forms of life, which are present as germs in milk and cream there is that constant struggle for survival which in a cultivated field goes on between weeds and useful plants. The careful farmer tills the soil to kill the weeds and then sows pure seed for the crop he desires. The buttermaker follows a similar course when he pasteurizes milk or cream, and then puts it into a pure "starter" to yield the desired flavor. Pasteurization does not destroy all the germs in milk or cream any more than cultivation eradicates all the weeds; but it decreases their number. Sterilization when efficient destroys all forms of life; but pasteurization destroys all of those which are injurious to the quality of dairy products. The condition thus created gives the germs of fermentation or souring which are introduced by the starter, a good chance to become the prevailing ones; so that the flavors which are the characteristic of the germs of the "starter." The later treatment should be such as to prevent any germs which bring about decay or nasty flavors from becoming active in the butter; and this is the use of cold storage.

The process of pasteurization consists of heating the cream to a temperature of 158 to 160 degrees Fahr., and cooling it rapidly to the ripening temperature by the use of some special cooling apparatus. Wherever this has been carried out properly in Canadian creameries the results have given better keeping qualities to the butter and have remedied faults in flavor in cases where taints of various sorts had previously been troublesome.

When only the quality of the butter has to be considered it is sufficient to pasteurize the cream after separation; but when it is also desired to lessen the danger of spreading disease by means of the skim-milk it is necessary to heat the milk before separation and cool the skim-milk and cream afterwards. A temperature of 185 degrees Fahr., is sufficient to destroy disease

germs likely to be found in milk, and whole milk may be heated to that temperature, with proper appliances and handling, without giving any objectionable flavor to the butter made from it.

In making butter from pasteurized cream the preparation and use of the "fermentation starter" are important parts of the operation. About two quarts of skim milk are heated to 205 degrees Fahr., and held at that point for ten minutes, after which the milk is cooled to 80 degrees Fahr., by pouring from one vessel to another, exposed to the atmosphere of the butter-making room. It is then left in a tightly closed glass jar at ordinary atmospheric temperature, in summer from 60 to 75 degrees, until it is coagulated and has a mild lactic acid flavor. This method can only be successful when the atmosphere to which it is exposed is free from germs which cause undesirable odors and flavors. When the "culture" as this is called, has been prepared, a quantity of skim milk, which is pure, sweet and free from taint, should be heated to 150 degrees Fahr., and left at that temperature for ten minutes. It may then be cooled to a temperature of from 60 to 70 degrees Fahr., when a portion of the "culture" as already described, at the rate of from 5 to 10 per cent should be added to it, and well mixed with it. That is the "fermentation starter." It should be left to ripen at a temperature not exceeding 70 degrees Fahr. When it has become distinctly sour and is nearing the point of coagulation, further development should be checked by lowering the temperature. The "starter" may be added to the cream at the rate of from 3 to 6 per cent of the quantity of cream to be ripened. In every case where the cream has become tainted, if the taint be of fermentation origin a larger quantity than usual of the fermentation "starter" should be added. This will check the taint and leave the particular fermentation of the "starter" to be the prevailing one in the cream and butter. To be most effective the "starter" should be added to the cream very soon after it has coagulated. After that point has been reached it deteriorates in activity as a "starter" and undesirable flavors are apt to develop in it.

Harvesters Reach Winnipeg. Free Press, Aug. 21.—The advance contingent of the harvest excursionists arrived here to-day by the Pacific express, which in two sections. There were about 350 excursionists on the two trains, nearly all young men. Government and railway officials were on hand to meet them and give them information and arrange tickets. There were also quite a number of citizens on hand in search of men. Most of those who came in to-day will leave for points in the west this evening. There are nine special trains now en route to Winnipeg with nearly 5,000 excursionists on board. They will arrive at intervals of a few hours during the next two days.

Miners May Come.

Toledo, Aug. 21.—The Canadian government has instructed the home-steading agents here to proceed to the Pennsylvania and West Virginia coal regions and offer an inducement to 30,000 or more striking miners and families to form a colony and locate on homesteads in Canada, the government to donate land in the great wheat belt. The men will be provided with work until they can prepare their land for crops.

Borden will Visit the West.

Vancouver, B. C., Aug. 19.—R. L. Borden, M. P., leader of the conservative opposition in the Dominion parliament will visit Vancouver about the middle of September, accompanied by other distinguished M. P.'s. Meetings will be arranged in Vancouver and vicinity.

THE FLOODS AT OKOTOKS.

Aug. 23.—Sheep river has once again risen in flood and worked havoc on the west. The heavy and incessant rains of Sunday and Monday caused the river to swell to an awful extent. The stream rose very rapidly. The damage done was very great. Mr. Latham's boom, which had only just been rebuilt after being washed out in May, gave way to the great rush of water and the last season's cut of logs, and to be the finest lot ever brought down the river. The bridge on the traffic lifted the south span of the bridge off the piers and carried it down stream some hundreds of yards where it now lies high and dry on a sand bar.

The railway bridge has suffered to a considerable extent two spans being carried away. So disastrous a flood at this time of the year has never before been known.

As a result of the storm this week all mail and railway accommodation has stopped as usual. We have not received any mail so far this week and the probability is there will be none today. This kind of thing is an imposition and we wonder how long the Dominion government will tolerate it; a work train reached here Thursday night, and therefore a mail train could have been sent down.

The work train in charge of Conductor English arrived on Thursday night and work was commenced at once and they expect to have the bridge open for traffic by this evening.

BATTLEFORD.

Saskatchewan, Herald, Aug. 20.

Harvesting is general in this district this week.

Cranes have already made their appearance on the stubble fields.

Mr. Alex. Settle, of Fort Saskatchewan, is on his way down to visit her needs.

Mr. Hanson, crown prosecutor, who went to Union lake to investigate the circumstances connected with the shooting of his companion by a young man named Putendine last spring, reached here on his way home on Saturday. The result of his enquiry was that the shooting was accidental.

On Friday, at the magistrate's court at the barracks, an aged half-breed named Cardinal was sentenced to three months' hard labor for taking the horse of a horse pasturing near town; and a squaw from Red Phosant's reserve was given one month for stealing two lots of ribbons from the Hudson Bay Co.

LACOMBE.

Advertiser, Aug. 25.

About twenty land seekers, from the States got off the train on Friday.

Mr. A. Gilmour shipped two car loads of line steers to Mr. R. Sutherland, Dorchester, Ontario, on Friday.

Mr. Thos. Long, one of the directors of the Merchants bank, was a visitor in town on Wednesday.

A large bunch of horses from the Bedford ranch, at Calgary, passed through here Thursday afternoon on their way to Battle river.

Three cars of settlers and their effects arrived on Wednesday from Illinois and intend settling in the vicinity. They say that a lot more are on their way up. They evidently know where to come.

FALL WHEAT AT RED DEER.

Mr. West Farmer, Frederick Simpson & Co., Red Deer, Alta., write, under date of August 12th: "Having noticed E. Carwell's report of his fall wheat at Penhold being a failure, we would like to say that ours at present looks very well and promises a good yield, the ears being well filled and the field is just commencing to turn color. We have 1-2 acres of Dawson's Golden Chaff, and 2-2 acres of Kansas Red wheat in an experiment. The Dawson's Golden Chaff promises at present to be a far better crop than the Kansas Red. They were both sown Aug. 10th, 1901, side by side, on new land broken in June. It was in an exposed position, with the result that it was a bare of snow nearly the whole of the winter. We would be very interested to hear how fall wheat has done with others."

THE ORACLE HAS A SURE THING.

With last Friday's issue the Olds Oracle enters on the third year of its existence. It is with a feeling of pardonable pride, it says editorially, that it looks back over the past two years and recounts the trials and difficulties of the way and "the dangers it has passed" and remembers that while during that time many another Alberta farmer has been born and buried, the Oracle is still in the land of the living, enjoying excellent health, and growing in wisdom and in stature and in favor with God and man.

FREE PRESS AUGUST PICTURE.

We have received from the Weekly Free Press a picture in colors of King Edward VII, this being the supplement which they are issuing to their readers for August in connection with their plan of monthly distribution of pictures. The picture, which is 10 by 10-2 inches, is printed in four colors, and shows His Majesty in the striking uniform of a field marshal.

ALBERTA BUTTER FOR AUSTRALIA
A car load of creamy butter has been shipped from Calgary to Australia. This is on account of the drought in Australia.

Manitoba Markets.

Commercial, Aug. 23.—This week the market for Manitoba wheat has become completely stagnant. In the forepart of the week there was a little demand for wheat at Fort William, available to load on vessels at once, but towards the end of the week buyers have withdrawn altogether. Exporters have been out of the market for some time, and the little that has been shipping has been to the Ontario trade. Evidently this trade is getting alarmed by the drop in cash wheat in the States and the low prices for future delivery and are quitting taking more in the meantime. Prices at the beginning of the week were 71-3/4 for 1 northern in store Fort William, and 71-1/2 for No. 2 northern and several smaller lots were worked at these prices. Yesterday, however, so depressed had things become that 1 northern was offered at 70c and 2 northern at 71c, without finding buyers. No business to report in new wheat yet. Value of 1 northern September delivery in store Fort William is supposed to be around 68c.

Oats.—Now that new stocks are close at hand, the country seems to be full of old oats, and there has been a sharp decline in price. It has been found that No. 2 white oats could be sold today for more than 35c per bushel in carlots. The oat market has been held up to an abnormal level by a combination of circumstances which are now rapidly disappearing. The partial failure of the eastern crops and the failure of the United States corn crop last year were the leading factors and had a decided influence upon oat prices here. The war in South Africa and consequent demand for oats there was also an important influence. These factors will not be in evidence when the next crop is marketed, but on the contrary there will be a large eastern and United States crop of oats and corn to compete with. The effect of this must inevitably be to lower the price. Local feed dealers are mostly loaded up with oats, and are not anxious to buy, and there is but little demand for shipment. For No. 2 white oats, the price today on track, Winnipeg, or in store, Fort William, is nominally 35c per bushel, and for feed grades 32 to 33c per bushel.

Barley.—There is practically nothing doing in barley. Some inferior quality stuff was offered here this week without finding buyers. About 35 to 36c per bushel for carlots on track is the prevailing idea of price.

Harvesters' Wages.

Winnipeg, Aug. 21.—(Special)—A number of delegates from all points of Manitoba representing about one-third of the farmers in the province, met in the provincial inspection offices this evening. The important point of the gathering was the passing of a resolution to the effect that not more than \$40 per month or \$1.75 per day would be paid to harvesters. The farmers represented by these delegates require immediately a total of 3,780 men who are all wanted for stooking, while double that number will be needed for threshing, which is expected to commence about September 20th. This number only represent the total number required by the farmers whose delegates are now present in Winnipeg, viz., one-third of the Manitoba farmers.

Manitoba Weather and Crops.

Commercial, Aug. 23.—This week opened with a heavy rain storm over most of Manitoba and Monday was dull and cloudy with occasional showers. The balance of the week has been fine and harvesting may now be said to be general in the wheat districts. The laborers' excursions from Eastern Canada are arriving daily and the men are being moved out to the fields rapidly. Next week wheat harvesting will reach its height and with fine weather should not take long, providing plenty of help is available. More than 10,000 men are already here.

Big Bands of Cattle.

Winnipeg, August 25.—Several large herds of stock are now being taken into Western Canada. Among them are Crosswell and Dey's bunch of 10,000 two year old Herefords from New Mexico, and the Broom Cattle Company's bunch of 4,500 from Southern Colorado. Dr. Knowles, state veterinarian, has just inspected the latter herd and given them the health certificate required by the Canadian government. Both concerns will turn out east of the Cypress Hills.

The C. N. R.

Free Press, William Mackenzie, of the Canadian Northern, arriving from the east this morning, coming in over the new line from Fort William. Mr. Mackenzie states that the work of putting the line in first class shape for hauling this year's crop is progressing and his road will be able to do their share of the work this fall and winter. In spite of the scarcity of laborers, work on the new extension is being pushed, and as much of the new road as possible will be ironed this fall.

Harvesters.

Montreal, Aug. 25.—Since August 18th, 11,978 harvesters have gone west from the Maritime provinces, Quebec, and Ontario. During the first two days of the week the average was somewhat below last year, but the last three days of the week a greater number went, making the total somewhat larger than for the same period last year. The next excursion trains will leave August 31, September 1 and 3.

Why the Boers Make Peace.

The following is the resolution adopted at the Boer conference held at Vereeniging, which expressed the Boer view of their position as a result of the war:

This Assembly has taken the condition of our country and nation into serious consideration, and has had special regard to the following facts:

1. That the war policy followed by the British military authorities has led to the territory of both Republics being completely laid waste, including the burning of farms and towns, the destruction of all means of subsistence, and the exhaustion of all resources necessary for the support of our families, the existence of our armies, and the continuance of the war.

2. That the placing of our captured families in the concentration camps, has led to an unheard-of amount of suffering and disease, so that in a comparatively short time nearly 20,000 of our dear ones have died in them, and the terrible prospect presents itself that if the war is continued our whole race may be exterminated in this way.

3. That the Kaffir tribes outside and inside the boundaries of both Republics have been almost all armed, and are taking part in the war against us, and by the commission of murders and the perpetration of atrocities of every sort have produced an intolerable condition of affairs in many districts of both republics, as has been recently shown in the Vryheid district, where fifty-six burghers were on one occasion cruelly murdered and mutilated.

4. That, by proclamation of our enemies to which they have already begun to give effect, the burghers still in the field are threatened with the loss of all their movable and immovable property, and thus with complete material ruin.

5. That by the circumstances of the war it has since long become impossible to retain the many thousands of prisoners of war captured by our armies, and that we can thus do comparatively little damage to the British armies, while the burghers who are captured by the British armies are sent out of the country; and that after the war has been paying for nearly three years only a small portion remains of the forces with which we commenced the war.

6. That this remnant still in the field, which forms but a small minority of our whole nation, has to contend with an overwhelming force of the enemy, and further has to undergo actual hunger, and is without the necessities of life, and that, in spite of our utmost efforts, and the sacrifices of all that was dear and precious to us, we cannot reasonably look forward to ultimate victory.

This assembly is thus of opinion that there is no reasonable ground for expecting that the continuance of the war will result in the retention of the national independence, and consider that in the circumstances the nation is not justified in continuing the war, as such can only tend to the social and material ruin not only of ourselves but also of our posterity.

Feeling the force of the above-stated circumstances and motives, this assembly charges both governments to accept the proposal of His Majesty's government, and to sign the same on behalf of the people of both republics.

HAIL AT SPRUCE GROVE

P. Umbach came in from Spruce Grove on Thursday, bringing a report of the effect of Wednesday evening's hail storm in that settlement. Mr. Umbach was no further west than Spruce Grove post office, but eastward from there to the edge of the plain all crops along the base line were very badly damaged, except that of Mr. Larue's at this end of the plain. Amongst those whose crops are badly damaged are Messrs. D. Brox, J. Schultz, Fred Gabel, sr., F. Gabel, jr., Langhart, P. Gabel, H. Struve, Wangler, Bristow, P. Umbach, J. J. Schell, Joseph Sudor, Amiel Ziegler, J. A. McPherson, R. Brober, A. Lange, W. Umbach, C. Gauthier, Savard, Hallett, W. Miller, J. Tough, G. J. Welbourne, Dandaneu, Empey. Some of these men had a little grain cut, and in some of the crops are not totally destroyed, but the damage to all is very great. Of course many others are no doubt losers. The district affected forms a part of the most productive section of the Edmonton district. Many of the farmers mentioned had from 100 to 400 acres of crop.

Mr. Umbach had four acres of flax which fortunately was cut before the hail. But several of his neighbors who had flax were not so fortunate.

G. Lacerte had about 29 acres of wheat cut and Mr. Welbourne had considerable cutting done, but the majority were just starting the day of the storm and had to quit after making a few rounds.

Messrs. McPherson, Lange and F. Gabel, sr., had small fields of fall wheat. The wheat had winter killed badly but had come on splendidly during the growing season and promised a good crop. The straw was weak, however, and some of it had lodged. It was just fit to cut, but was involved in the common wreck. It was of the Turkey red variety.

FAREWELL MEETING

Communicated.
The head house, in Montreal, of the Sisters of Charity, who are running the general hospital here, will have its general chapter on October the 6th, in which all the officers of the whole community will be elected for five years by a council of twenty-five sisters, partly composed of delegates from the different quarters where the sisters are established. The Northwest Territories missions will be represented by Rev. Mother Letellier, provincial superior, who has the inspection of eight missions from Calgary to Mackenzie river. Rev. Sister Dandaneu, superintendent of St. Albert academy, and Rev. Sister St. Angele, superintendent of Holy Angels, Athabasca Landing.

In view of the approaching departure of Rev. Sister Letellier the ladies' hospital aid society, assembled, as numerous as ever at the general hospital, last Tuesday. An appropriate address was read by Mrs. Beck, secretary, and Mrs. LeChambre, president, handed Sister Letellier \$25 in gold pieces. Though taken by surprise the Rev. Sister made delicate answer and warmly thanks for the pleasant reunion and generous presentation, expressing her satisfaction for the devotedness she witnessed from the ladies who presented the hospital with \$1,085.00 since she was associated with them, besides individual gifts. She concluded by saying she would come back with the greatest pleasure if ordered to do so. The ladies visited the hospital and found it neat, bright, even cheerful, as so many visitors often remarked. The ladies observed many modern improvements, especially in the so white and well lighted operating room thoroughly furnished with glass tables, shelves, irrigators, bowls, etc., etc. The patients seemed to enjoy so much the fourteen pleasant and useful verandas and the beautiful gardens. Light refreshments was served and one can hear; Bon voyage, come back again. Sister Letellier will be acting superior, and Sister Grandin, sec-treas.

LOCAL

—Train on time.
—Monday next is labor day and a public holiday.

—J. D. Skinner, of Lacombe, was in town on Thursday.
—Miss Margaret Crozier left on Thursday for Regina to attend the normal school.

—Miss Mabel McCauley leaves to-morrow for Regina to attend the normal school.

—Miss Grace Ritchie, of Strathcona, leaves to-morrow for Regina to attend normal school.

—The lacrosse match between Edmonton and Leduc billed for Monday has been called off.

—M. McCauley and his daughters, Misses Maud and May, left for Beaver lake on Wednesday.

—Strathcona football team will play at Calgary during the fair. They expect to go down to-morrow.

—Jas. Reilly, of Calgary, paid Edmonton a visit on Wednesday. He went south on Thursday.

—Misses Harriet and Dora Oliver left on Thursday's train for Regina to attend the normal school there.

—Mr. and Mrs. J. W. McLaron, of Strathcona, left on Thursday on a visit to Ottawa, their former home.

The Great Falls and Canada railroad which connects Lethbridge with Great Falls will be broad gauge by October 1st.

—Fort Saskatchewan baseball team will visit Edmonton on Monday and play for the Raymer cup and 'Mills' medals.

—Miss Campbell, sister of Hugh Campbell, of McIntosh & Campbell, arrived last week on a visit to her brother.

—A branch of the Merchants Bank of Canada has been opened at Caraduff, Assa, under the management of J. J. Galloway.

—The car of horses advertised by Giles & Son to arrive on the 26th, on account of the washouts, only arrived on Thursday.

—Miss Cookson, sister of Mrs. McCauley, arrived this week from Dallas, Texas, on a visit to relatives in town and at Beaver lake.

—The regular monthly meeting of the Woman's Hospital Aid society will be held in the council chamber Monday, Sept. 1st, at 4 p. m.

—Paul Lechambre and Joseph Tessier left on Wednesday for Montreal. The former will attend college in Sorel and the latter in Montreal.

—Mr. Aldous, land commissioner of the Hudson's Bay Company, arrived on Wednesday's train and on Thursday started on a driving trip through the district. He will be out at least a week.

—Tax sale of town lots on Saturday, to-morrow, at 10 a. m. at the town hall. There are 12 lots in all to be sold. There were 17 advertised but 5 have already been redeemed. Eight are on the Hudson's Bay property, 3 on the Ross estate, and 1 on acre on river lot 29 adjoining Little's brick yard.

—The H. B. Co. will have three more blocks of their property north of Jasper avenue surveyed at once. The demand for the property in the three blocks first surveyed has been so satisfactory that the extension has been decided on. This will carry the survey west as far as Seventh street.

—A Taylor, president of the Edmonton Cemetery Company has been informed by Mr. Aldous, land commissioner of the Hudson's Bay Company, that the company will permit improvements to be made through the company's property from Jasper avenue to the cemetery, provided they are in line with one of the streets surveyed south of Jasper avenue. The company does not at present contemplate extending their survey so far out.

—Two handsome trophies and nine medals are on exhibition in John J. Mills' window. They are the silver cup presented by J. W. Shera, M. L. A., for district competition and won by the Edmonton baseball club at Fort Saskatchewan, and a silver cup presented by E. Raymer to be played for at matches to be arranged and the gold medals presented by Mr. Mills to go with the Raymer cup. The cups and medals are of very handsome design.

—J. H. Gariepy returned from Montreal on Thursday's train accompanied by his son Wilfrid Gariepy. Mr. Gariepy has not been east since he left Montreal ten years ago. While he was much pleased to meet old friends and to notice the march of progress in the east, he is better pleased that ever with Edmonton. Mr. Wilfrid Gariepy, who was studying law in Montreal, had fallen ill of typhoid fever just before his final examinations, and has returned home until his health is sufficiently restored to enable him to return for the next examination in January.

—An effort was made by Mayor Short to induce the party of British journalists west to visit Edmonton. They were wired to offering them entertainment and a day's driving through the country.

—Today he received the following reply from V. T. R. Prefect of the Canadian immigration office, who is conducting the party. The reply was dated Indian Head, Aug. 28th: "Touring journalists cannot spare time to accept your invitation." No doubt the visit of the party would have been an advantage to the district and Mayor Short deserves every credit for his effort to secure their coming.

CARDINELL-HEIMINK

The residence of Councillor P. Heimink, corner of Rice and McDougall streets, was the scene of a happy event on Wednesday evening, being the marriage of Miss Mary Isabella Heimink to Mr. Albert F. Cardinell. The house, which is one of the best in town, was well adapted for such an occasion, the spacious rooms and elegant furnishings showing to great advantage. The ceremony was performed at 7 p. m. in the drawing room in the presence of a small number of friends, and relatives, by the Rev. D. G. McQueen. The bride was attired in a most becoming lavender colored costume trimmed with white corded silk and white satin. Miss Belcher was bridesmaid and Mr. L. Heimink, brother of the bride, was groomsmen. After the ceremony the wedding breakfast was served in the dining room which had become a perfect floral bower. After the usual honors had been paid and the breakfast was concluded, the happy couple drove away at 8:30 for their own home on May street amid a shower of rice, slippers and good wishes. The guests remained for some time afterwards and the party separated about ten o'clock. Amongst those present were: Major and Mrs. Belcher, Mr. and Mrs. Hutton, Mr. and Mrs. Fieard, Mr. and Mrs. McQueen, Mr. and Mrs. Bullock, Mrs. A. Fraser, Miss Olive Ross, and Mr. Elmer.

The good wishes of her friends towards the bride were manifested by a large number of useful and ornamental presents in silver, china, glass and linen.

Mr. and Mrs. Heimink are amongst the pioneers of Edmonton and although born in Winnipeg the bride has grown to womanhood here. The groom is from Brampton, Ontario, and since his arrival here has acquired considerable stake in town.

THE HAIL OF WEDNESDAY.

As far as can be learned the storm of Wednesday evening was most severe in the Spruce Grove district of Stony Plain. It passed between St. Albert and Morinville, cutting up the Bellisle, Knitz and Engel farms. On the Sturgeon it did a great deal of damage but seems to have been not quite as severe as at Spruce Grove. The Sturgeon district was struck. The storm extended from the crossing of the Sturgeon southward to the Johnston farm, south of the correction line. Belting reports have not been received. But H. Bell, A. Cameron, Mr. Knight, Jos. Reid, J. and G. Carnegie, C. Carson, J. Carson, D. B. Wilson and two. Several land are named as having suffered. Cusht's Cut Bank farm was not touched. This was the most destructive hail storm that ever visited the district. It did not come nearer than ten or twelve miles of town.

THE WEATHER.

The rain which began to fall on Wednesday night continued during Thursday, but no great amount fell. Thursday is bright and breezy, and the roads are dry already. Possibly some of the heavier crops have been injured by the high wind, but the damage will not be serious. Cutting is in progress and harvest will be general next week.

Maple Creek Robbery.

Maple Creek, N. W. T., Aug. 23.—An important arrest was made last night by the N. W. M. Police at Medicine Hat in connection with the robbery of Dixon Bros.' store here on Aug. 6. For several days the police had been following up a suspect in the person of H. R. Forsythe, an ex-policeman, who some two years and a half ago was convicted on a charge of appropriating cattle on the range, and had only a short time previous to the robbery been released.

Last night the police concluded his actions were suspicious enough to warrant his arrest, which was promptly made, and an examination of his belongings revealed about eight hundred dollars in his possession.

The prisoner was brought here to-day in charge of Sergt. MacLeod and placed in custody awaiting preliminary trial.

Manitoba Liberal August 20.—Manufacturers of Canada in session at Halifax last week occupied a great deal of time revolving on the tariff and asking that there be a general revision with the object of increasing duties. It is true enough that a revision of the tariff in some lines is desirable but when it comes it should bring lower, not higher duties. The west is solid against tariff increase and is supported by the great majority of eastern agriculturists, and the manufacturers would be wiser in keeping quiet on the matter. The liberal party in Canada has always advocated low tariff and increases would meet with protests that could not be disregarded by any government.

Winnipeg Tribune, Aug. 23. The hail storm last Sunday damaged some crops in the Stonewall district, and a horse belonging to Dugald McLeod, of Argyle, was killed.

MARRIAGES.

Cardinell-Heimink.—At the residence of the bride's parents on the evening of Wednesday, Aug. 27th, by Rev. D. G. McQueen, Albert F. Cardinell to Mary Isabella Heimink, second daughter of P. Heimink, of Edmonton.
